1. PRE-SESSION CONSULTATION

Ideally we should have a short discussion beforehand, this can be done as a face-to-face chat, phone conversation or emails. We can discuss what sort of style/looks you want captured, decide what backdrops you would like, and if there are any particular things you would like to capture.

2. PREPARATION

This section is more for newbies; if you are experienced at having your photo taken you can skip this page.

It is a good idea, in the run up to your session, to spend some time practicing your poses. Get to know your bodyshape and work out which poses you like, and which ones you don't. Some standing, some sitting, some crouching. Full length & head and shoulders. Look for inspiration online; find posing guides, look at fashion photoshoots and images of other kings or queens. Learn how to accentuate your best bits and hide the bits you hate.

The more you get to know your face and your body the easier it will be once you're in front of the camera.

3. WHAT TO DO BEFORE YOU ARRIVE

Although this session has been especially tailored for the needs of a drag performer, time and space at the studio is still limited. I don't want you to feel rushed or pressured; it is best that you take your time over your make up at home and have most of it done before you arrive.

It is also a good idea to remove any watches or jewellery you don't want in the photos, particularly anything that is likely to leave a mark that may take a while to fade.

If necessary, plan the progression of your looks throughout the session; especially if you are going to change your makeup.

4. WHAT TO BRING

The 90 minute session will allow time for 3 - 4 different looks however, if you have them, bring more options on the day.

As well as your fabulous outfits you need to make sure you have everything with you that you will require. Based on experience, I have put together this handy check list. Delete any items if inappropriate.

CHECKLIST -

- Make-Up
- Mirror
- Wigs
- Wig Glue
- Hair Styling
- Jewellery
- Padding/Undergarments
- Shoes
- Any other accessories or props (discussed beforehand)
- AND, of course, your Charisma, Uniqueness, Nerve & Talent

5. YOUR SESSION TIME

Arrive at the arranged time, there is no need to arrive any earlier than planned. You will have time to relax and get ready before stepping in front of the camera.

It can be a good idea to bring else with you. Someone to help you get into your outfits, be another pair of eyes to check details

Unless you have requested a plain white backdrop for all your shots, we will work together to create a backdrop and lighting combination that will work best for each outfit. The aim from each set-up will be to create a unique look and add variety to the shots, we want to avoid it looking like all the photos were taken at the same session.

6. WHAT HAPPENS NEXT

WITHIN 3 DAYS OF YOUR SESSION

All the proofs from the shoot will be uploaded to a private online gallery. The link and password will be emailed to you along with instructions on how to select your favourites. These proofs will be unedited, straight out of the camera. Any cropping, retouching and general tidying up will only be done on the images you choose.

TIME TO CHOOSE

Take as long as you like. You are welcome to share the gallery with family, friends and even your agent; the more opinions you get the better.

EDITING & DELIVERY

Once you have favoured your selections you will need to let me know so I can start the editing process. The Drag Photo Packages doesn't include any images, this allows you the freedom to choose as many photos as you want. Standard retouching will include skin smoothing and lace removal. If you have any other requests these can be discussed once you have made your choices. As soon as the images are finished, and any outstanding balance has been paid, they will be made available to download direct from the online gallery.

UP TO 6 WEEKS FROM YOUR SESSION

Galleries remain online for 6 weeks from the date of the session. Please make sure that you have selected all the photos you want, and you've downloaded all your purchased images, before the gallery expires.

7. FAQs

Can I have the unedited RAW photos?

Unfortunately not. The quality of the photographs I deliver to my clients is extremely important to me; they represent my brand as much as they represent you. With this in mind I can not allow images into the public domain which I have not approved.

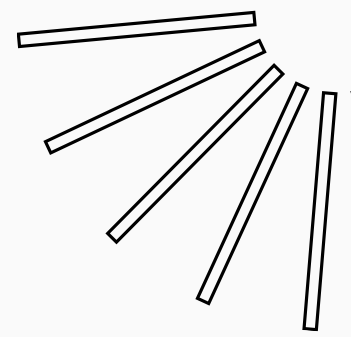

Can I share my images on my social media?

You are welcome to publish your purchased and retouched images but you are not permitted to share any proof or unpurchased images online. It is not necessary but please consider tagging me when you share:
